1. Fifty workers were engaged in digging out the three underground fuel containers at the PRENZLAU (N 54/4 04) airfield. This work, supervised by a Soviet Air Force second lieutenant, was ordered by the district kommandatura.

20 October 1949

2. The PRENZLAU airfield was not occupied by the Soviet Air Force. The debris of the destroyed hangars was cleared. The PRENZLAU Police School was quartered in the airfield kasernes, which had a total capacity of from 1,000 to 1,200 men. Repair work was being done on some damaged kasernes.

Comment:

The occupation of both the kasernes and the landing field has not changed since 11 September 1949. No air unit has so far been stationed at the field. There are no indications that the police units quartered in the kasernes are being given flight training.
